

Rehab Cutters for Laterals & Drain Lines

Powerful Air-Driven Cutters for Small Diameters

Small-Diameter Rehab Cutters

Air-Driven, Multi-Axis Cutters That Power Through Any Material

Exceed expectations, outperform the competition and maximize profit—lateral and drain line cutters from PRT help you do all three. They deliver unmatched versatility and power, giving you the confidence to meet every challenge head-on.

Three different models provide a range of capabilities to meet your needs: Whether you're working in residential service lines, commercial laterals or both, PRT's selection of cutters get the job done. And with a wide selection of bits for each model, these cutters provide precise cutting power for a variety of line materials.

Support Makes the Difference

When technical challenges arise, our support personnel are at the ready. Many of our techs come from the contracting world and understand that profitability depends on uptime.

Try Before You Buy

Ask us about rental options. With competitive rates, flexible terms and on-site training, there's no reason not to have the best tool for the job—even on a tight budget.

Bit of Advice

Our wide selection of bits means you can make cleaner, more precise cuts in a wide range of materials. The right bit lasts longer, cuts faster and protects your cutter.
