# Reinstatement Cutters

We help you fix pipes.

Infrastructure contractors depend on innovative technologies to be more profitable in pipeline rehabilitation. Pipeline Renewal Technologies delivers that innovation to processes ranging from relining to pipe point repair and lateral reinstatement.

We are committed to maximizing your competitive advantage by delivering superior training and support which minimizes your downtime and cost-of-ownership. Contact us anytime for more information or with any questions you have.

Robotic rehab cutters from PRT deliver unmatched versatility and power, giving you the confidence to meet every challenge head-on. Whether you're working in residential service lines, commercial laterals or grinding offsets in mainlines, PRT's air-powered cutters get the job done.
